# THINK ON.

## NCV12711 Pspice Model

Yann Vaquette, Application Engineer  
Toulouse, France

Public Information

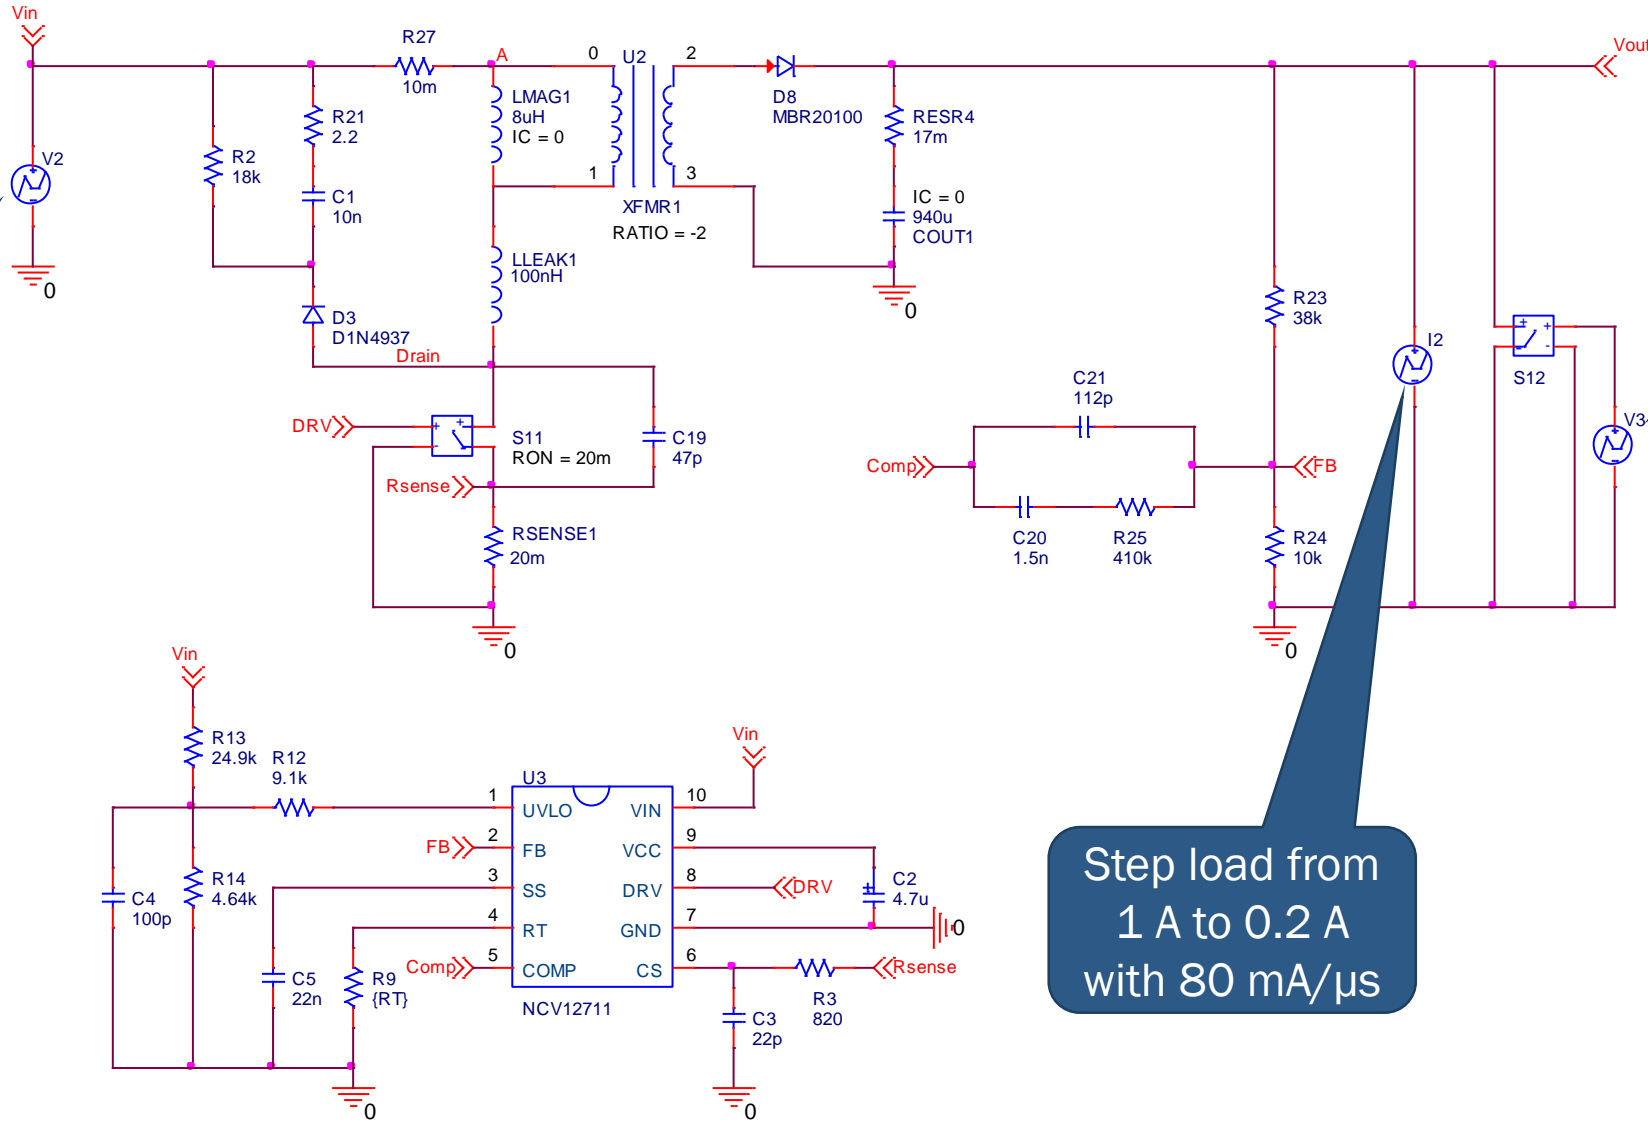

# Schematic

Input voltage equals to 4 V from 0 to 20 ms then 45 V

Output voltage is shorted before the 45-V input voltage

Step load from 1 A to 0.2 A with 80 mA/μs

# Simulation

Output voltage  
shorted
